Note: Cable provider and equipment changes often occur. For the latest version of these instructions please visit our [website](#).

To watch Spectrum (available via Roku)

1. Turn on the TV
2. If you don't see the Roku Home Screen, use the input button on the TV remote to verify that "**Input 6**" is selected
3. On the Roku Home screen select the Spectrum app
4. Use the channel guide within the app to select the desired channel

NetFlix/Streaming Roku Player

1. Access Roku as described above
2. On the Roku Home screen select the Netflix app

Toshiba BluRay Player

5. Use the Sony remote to power-on the player
6. Power-on the TV and set the input to: "**Component 2 / INPUT-1**" (see above).
7. Insert a disc

Music:

1. Power-on the "**harmon / kardon**" receiver (red button at left). Be sure the following buttons are in the "depressed" position: "**spkrs-1**", "**monitor**"
2. At right, knob should be set to "**Aux**"

Things to note:

- "Pay-Per-View" selections must be billed to your account.
- Check cable connections, if you are still having trouble.

These notes are as current as possible – we do have guests occasionally "creatively" modify these connections. We ask that you *refrain from doing so*. If a component does not work as described here please contact us.
